

Our 8th Grade Science Book is available online!!

Dear Parents:

You can now access the science book online

You will need to have the current version of adobe reader on your computer. You can access this at www.adobe.com. Then click on adobe reader and download. You will need to shut down your computer and restart it to have the program working properly.

Next you will need to log onto: www.earth.msscience.com

Next click on Text Book Resources

Next click online student edition

Next click online student edition again (left hand side)

Student Login: (enter code) F293FFC3E6

Click submit

(Once the PDF opens): click on the white paper with a blue ribbon

Under Table of Content click on the + sign and you can download any chapter that you need

You can also use an interactive tutor and self check quizzes to help when studying for test or reviewing information that your child did not quite understand. These tools are available on the main page www.earth.msscience.com on the left side of the screen
