# Important Notice

## Alternate Bus Pickup Location Schedules

Dear Parents,

Because of recent changes to the snow removal and ice control for Monroe County roads, Mason Consolidated Schools has implemented new procedures when weather conditions exist that affect our district's roads. In the event that there are roads upon which the buses cannot safely travel, parents may have to transport students to the nearest major intersection to an alternative bus stop. There are three different schedules: A, B, or C. The alternate schedule or schedules that apply to your residence is listed below. Mason will offer this service, but the decision as to whether to send your student on these days would be at your discretion.

If an alternative bus pickup schedule is necessary, the announcement will be made on the usual radio and television stations between 6:00 and 7:00 A.M. You can also access the district's website: [www.eriamason.k12.mi.us](http://www.eriamason.k12.mi.us) or call 734-848-5475 and follow the prompts to "School Closings" to find out what transportation schedule has been determined. Listed below is your student's name, bus number, the inclement weather schedule that will apply to your residence and the location of the alternate bus stop. The time of pickup will be as close as possible to the student's regular pickup time. **If there is no alternate schedule listed for your address, your student will be picked up at their regular bus stop.**

Student safety is of the utmost importance to the Mason Consolidated Schools. Your patience is appreciated as we implement our new inclement weather transportation procedures. If you have any questions, or have corrections to your address and or contact telephone numbers, please call 734-848-9391, 734-848-9300 or 734-848-9301.

Sincerely,

*David A. Drewyor, Superintendent*
